

AMBS Acceptance Policy

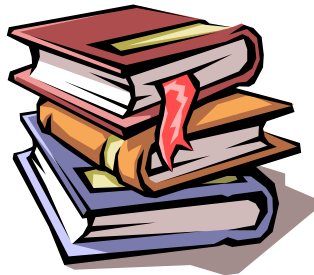

current families re-registration first with guaranteed placement within the designated re-registration period in January

PreK enrollees please note: uniforms are worn in Pre K

Since we expect to have more prospective enrollees than we have spaces, top priority for enrolling in our PreK 3 and Pre K 4 program will be given to those families wishing to enroll in a full five-day session...space availability will determine who else will be able to enroll...for current families we encourage you to seriously consider the full five day program as it affords the best opportunity for a successful well rounded start in the early childhood learning experience.

As usual priority will be given to those families

- ∅ who will have children enrolled in grades one through eight,
- ∅ the next priority will be to those who have attended AMBS early childhood program during the current academic year,
- ∅ the next priority will be to those who have attended 'the Prep' program and are parishioners of MBS,
- ∅ the next priority to those who are registered parishioners of MBS and are new to the school and then space dictates if we have room for any one else who might want to join us.

New family registrations will be considered based upon space availability, interview process, academic records & waiting list placement, ... additional siblings, next, parishioners, new to school next, and Catholic families new to the school and/or the area, & all other families new to the school and/or the area

AMBS is pleased to offer the following
quality Catholic educational opportunities:

Our Early Childhood Program...

Please note: age requirements!!!

the "Prep" @AMBS for toddlers 18mo and up ... no longer a mommy and me program but a full readiness program designed to stimulate the imagination and creativity of the young child

Little Blessings Pre-School for 3 & 4 year old children

Transitions, a developmentally appropriate, innovative program for children 4 & 5 yrs. old, who have already completed two years of pre-school and meet readiness requirements

Kindergarten for children who reach age five by Oct. 1st
and meet readiness & acceptance requirements

Our Elementary program...

Early Elementary grades 1-3 featuring our Math Challenge program also offered at grades four and five along with our accelerated reading program

Upper Elementary grades 4 & 5 featuring further specialized math and reading offerings along with introductory use of laptops integrated through many curriculum areas

Our Middle School program...

the Aquinas Middle School for grades six through eight signature program...student receives an individual laptop for use in school throughout their middle school years as our technology program is fully integrated throughout all areas of our curriculum

All grades participate in an intensive writing program using the "Write Tools" instructional materials; IXL Math enhances our Mathematics instruction while, SmartBoards in all instructional areas, provide the latest enhancement to our academic offerings...
come for a tour and experience our specialized programs!
