

*Welcome and thank you  
for choosing AMBS for the 2010-11 academic year!*

Creating a unique family bond between parish, home and school is one of our central goals. Once you entrust your child/ren to our care, we offer you, as parents and their first teachers, a *3D partnership*...spiritual growth, academic success, and ethical responsibility. This is a vital investment in your child/ren's future and we recognize that you look forward to the dividends...a deepening of faith, a strong knowledge base, personal discipline, and moral development.

You as parents and partners will experience a strong sense of Catholic/Christian community here at AMBS, and we look forward to working in partnership with you and your family. Our teachers are fully qualified with more than half holding Masters degrees and beyond. They are also well qualified in faith development and do not hesitate to share their deeply spiritual convictions with the children. Prayer is integral to our daily lives and we pause for prayer throughout our day. A rich prayer life is a lifelong habit that will stand them in good stead as they continue on life's journey after the AMBS experience.

Additionally you will find that everyday at AMBS is an exciting academic learning experience. Spiritual development coupled with our offerings of an ever evolving, updated curriculum fully integrated with technological enhancements is designed to prepare today's students for a life-long love of learning, and for a successful future as active participating Catholics in the 21<sup>st</sup> century!

Along with our technological enhancements, we offer a quality Catholic academic program with a strong emphasis on individual attention, differentiated instruction and attention to the various student-learning styles. Special programs are available to address unique learning needs, whether a student needs acceleration or remediation. Each of your children will flourish in a safe, secure environment designed to take their natural God-given talent and develop it to its fullest potential.
